

Get the Seesaw Class App

Your child will use the **Seesaw Class app** for home learning. This is different than the **Seesaw Family app**.

- 1 **Seesaw Class Journal** – Students will be provided with home learning activities via Seesaw Class. Teachers will connect with students via this platform with a daily message.
- 2 **Seesaw for Families** – for parents to be able to view student work and communicate with the teacher (not to complete activities). This is for parents who want to see their child's work when they are not with them.

If your home device is a tablet or phone, download or update the Seesaw Class app in your device's app store. The most recent version of Seesaw is required for home learning. App update is required!

If your home device is a laptop or computer, visit app.seesaw.me. Or visit the Osborne Primary Website, **Home Learning tab**. The link is attached to your child's Year level.

Home Learning

- ❖ Keep contact time **between 9:30am – 2:30 pm with teachers**. Please understand that while schools remain open, teachers will reply as soon as possible to any queries.
- ❖ Students are encouraged to share their home learning via Seesaw Class with their class teacher for feedback.
- ❖ Visit the Osborne Primary website <http://osborneps.wa.edu.au/>

Click the '**Home Learning**' tab on the menu bar at the top.

Click onto your child's year group for some **useful websites** and all linked **school subscriptions sites** (check home packs already sent home and Seesaw messages for passwords).
